

Lean Six Sigma Green Belt Certification

Lean Six Sigma **Green Belt** is one of the most effective frameworks for driving improvement across an organization. Earning your Six Sigma Green Belt certification can help you wherever you are in your career.

This 10-week hybrid program, led by Sadie Taylor Paige of Illiana Consulting Group, blends in-person sessions, virtual instruction, independent study, and real-world project work. Participants who complete the applied project and final exam will earn a Green Belt certificate from Community Education at Parkland College.
